What Kind Of Internships?

Internships at AVA Wealth and Consultancy is not the same as any other internships. Here you can learn about Financial Planning, have fun playing game and visiting other's places inside or outside Johor. Learned new knowledge and from that you can shared it with you beloved one or even stranger (A friend you never meet).

Through this internship program you also can meet new friends, which in a short time you will be a family. You also can meet many successful seniors, at that time you have to ask for tips from them on how they gain they success. Don't have to worried about Accommodation or Transport, because it's provided.

What I Gain?

For the first time, I arrived at AVA Wealth Consultancy I thought it just the usual kind of internships. But the next day, I realized it's different and I kind of unwilling because I don't know what I actually need to do. But after one month training, I understand about this internships. I got a lot's of knowledge, have fun, motivation and I'm just so ready to go through another 3 month and achieved what the type of happiness that my seniors told me. it will be a different story for each of us, maybe someone will had they easy way for success and yours will be like a Cinderella story were she meet his Prince Charming at the end. But the key is to never give up because you will meet your success.

Appreciation

I want to say Thank You to Mr. Andy and Ms. Violet for giving me this opportunity to join this Internships Programs, which I might not found in any other's Internships. All the knowledge's and site visit make me feel very happy and I enjoy this moment's of my internships.

To Miss Farah, Thank you for teaching us this one month and also for being our mother's at hostel. For my internmates, I miss you guys and thanks for all those memories. We always help each others if there anything's we do not understand or we in need of. LET'S MEET AT THE TOP.

The End

Thank you for viewing my testimonials, if you have any questions you can just DM me on any Social Media platforms. Lot's of Love have fun learning.
