**A strong bond makes you strong. No matter what happens, this career is our choice .**

Last but not least....

- Mr Andy and Kak Farah has taught us so many things about this career.
- We had our site visits just to let us learn how to do this business.
- Our mind has been trained to be positive and always be prepared of whatever tasks that we will do.
- This career is worth more than just selling products. It is a kind of career giving a better life for people outside there.
- This career has its own challenges. We have to educate people as they always said that they are not interested with takaful. It is not about their interest, but it is about our responsibility towards ourself, family and society.

**IT IS NOW YOUR TURN TO MAKE A CHANGE**

**SEE YOU AT THE TOP !**
