APPRECIATION POST

First, I would to thanks Mr Andy , Ms Violet and Ms Farah for the guidance about the career path as financial planner and tremendous effort for training us to be a good financial planner. Special credit to Miss Farah for being a good trainer and take a really good care of us along this internship programs. I enjoyed staying here for a months with other interns from different background. Thank you for treating us like a family and provide a comfortable accommodation during this internship program. I've surrounded with positive environment and get a lot of encouragement and support from Mr Andy, Ms Violet, Miss Farah, seniors and buddies to start this career.

In addition, I have also achieve my target before start the internship programme which is to improve my overall skills such as communication and management. To my batchmate Intern M, hope we will meet again as a successful Takaful Planner. SEE YOU AT THE TOP !
